

**BROTOLOC NORTH
MORNING VIEW II CBRF
PROGRAM STATEMENT**

Revised 4/30/2020

Description:

Morning View II is a Class A CBRF, designed to serve up to eight (8) adults, 18 years or older, with chronic mental illness, AODA issues, Intellectual Disabilities and any who are dually diagnosed. It is located at 440 Sunday Dr., Altoona, WI 54720. The administrator of this facility is the Regional Director of the Eau Claire Region, the Program Manager of the facility is responsible for the day to day operation. If the program manager or Director are unavailable, the Assistant manager is the next in line and the back-up staff after that. Their numbers are posted and available at the facility.

This facility has accepted and successfully maintained, on both a short term and long-term basis, residents who have been unsuccessful in other CBRF's but yet do not require an institution level of care such as the Mendota or Winnebago MHI's provide. Morning View II safely serves individuals who live with the effects of mental illness, developmental disabilities or AODA issues. From our history clients that have problems with mental health disorders sometimes may also have some Intellectual/Developmental Disabilities, and are on medications that can and do help with one or both issues and need support that can help with both issues.

The physical layout of the facility provides for a higher level of supervision, safety, and security than normally available in a CBRF. There are four available exits/entrances within the facility for emergency purposes. There is, however, one main exit/entrance. Exit doors, although not locked, are wired into an alarm system to alert staff to elopements from the building. A high staff-to-resident ratio for personal attention, as well as the availability of individual/group therapy facilitates a relatively speedy resolution of any resident crisis.

Admission Policy:

Morning View II is open to persons ages 18 years and older with mental illness, AODA issues and/or intellectual disabilities. These individuals may be recovering from chemical dependency, as well. Due to the Class A licensing, individuals must be ambulatory and able to respond to and take actions in any emergency situations.

Morning View II welcomes individuals who exhibit challenging behaviors, but may exclude persons who are actively suicidal, who present a chronic and severe danger to themselves or others, and/or who are destructive of property, unless an Individual Service Plan identifies the areas of risk and serves as a reasonable plan to minimize these risks. Initial referral and assessment information must be at Morning View II on admission of the resident.

Within 90 days prior to admission, each resident must be examined by a physician or registered nurse and found to be free of communicable disease. Documentation of this examination is required prior to admission.

Program Goals:

The overall goal of Morning View II is to maximize the residents’ cognitive, effective, and psychomotor skills in order to help them obtain their highest possible level of functioning. This will be accomplished through attitudes of hopefulness, a structured, yet warm environment, individual treatment plans with realistic goals, and the opportunity for social interaction, **group and supervised apartment living**. Imperative to the program is an emphasis on community integration to the greatest extent possible for each resident. Examples of such integration are vocational opportunities through developmental training centers (REACH, CDC, Supported Employment), independent employment when appropriate, religious activities, cultural events, and social interaction through community events and activities. Each resident will have a goal-oriented individual service plan which will be discussed and reviewed with case managers, guardians, families, and others involved in their lives.

Specific program goals include:

1. Assisting and training residents in personal care activities such as dressing, grooming, and bathing.
2. Assisting and training residents in daily living skills such as meal planning and preparation, laundry, and household chores.
3. Assisting residents in appropriate socialization, including productive and independent leisure time, one-on-one interaction, and group activities.
4. Assisting residents in understanding and expressing their emotions and feelings, focusing on building good self-esteem and a sense of self worth.
5. Encouraging and helping residents in maintaining involvement with family members and other significant people in their lives.
6. Accurately assessing and responding to the unique and changing needs of each resident.

Staff Levels and Training:

Morning View II will have at least one staff on duty at all times. The ratio of staff to residents shall be adequate to meet the needs of the residents as defined in their assessments and individual service plans and for the type of facility.

All staff at Morning View II are trained through Brotoloc North in services as well as at least 24 hours of on the job training. Trainings include:

CPR	Observing & Charting	Introduction to TBI
First Aid	Seizures	Introduction to M.I.
Fire Safety	Vital Signs & Assessment	Introduction to I.D/D.D.
Medication Administration	Resident Rights	Personal Care Training
Standard Precautions	Sexuality Issues	Change In Condition
Dietary/Sanitation	AODA- Intro, Relapse, Recovery	HIPAA
Trauma Informed Care	Abuse Neglect, Misappropriation	Crisis Prevention (Challenging Beh)

The staff are also all trained as Personal Care Workers. All training must be completed within the first three months of employment. Refresher courses are required for CPR, First Aid, Medication Monitoring, Vital Signs & Assessment, Resident Rights, including abuse, neglect and misappropriation, and Recognizing & Responding to Challenging Behaviors. In addition, extra trainings are offered throughout the year.

Safety Issues:

Morning View II will train residents to develop a working knowledge and understanding of areas where precautions may be necessary, such as emergency plans in case of fire or severe weather, community safety as well as sexuality and abuse issues.

Program Services:

Program services are provided as described in each resident's Individual Service Plan in the following areas:

Health Monitoring/Psychiatric Services

Health Monitoring Services are provided by on-staff Registered Nurses who ensure that each resident receives an initial health screening assessment and at least yearly examinations by a physician. Brotoloc North provides for health care through a number of local health care providers, dentists, neurologists, pharmacy services, and other specialists.

Medication Monitoring

Medications will be self-administered and monitored by trained staff. Medication administration by authorized staff will occur only when ordered by a physician.

Leisure Time Services

Leisure Time Services are designed to maximize community involvement through frequent attendance at activities and utilization of various resources in the Eau Claire and surrounding area. Residents have the opportunity to structure their leisure time through group consensus, attend sporting events and movies, use the library, the YMCA, and go on picnics and fishing. Special events and tours are scheduled for the residents throughout the year, and they also have opportunities for vacation trips and camping. Brotoloc North participates in Special Olympics, and at least monthly, the Eau Claire Region of Brotoloc North holds a region-wide recreational event – a dance, party, hayride, barbecue, etc. Additionally, weekly gatherings at other houses for arts and crafts promote social interaction with peers. Family-style, home-centered recreational activities include playing cards and board games, listening to music, viewing television and videos, and reading. Participation in exercise programs, walking, and sports activities are also offered and encouraged.

Personal Care Services

Personal Care Services are provided by Brotoloc North staff who assist and support the residents in activities of daily living as specified in the residents' Individual Service Plans. Supportive home care service referrals will be made to outside providers when such services are ordered by a physician., if and when Brotoloc staff are not qualified to provide those cares.

Respite Services

At this time we do not support respite care services.

Information and Referral Services:

Residents are also offered an client led AA and NA meetings by Clients that are leaders of these groups outside of the homes previous to this and are in a point in their recovery where it is deemed appropriate.. Additional vocational, educational, counseling and mental health service referrals not included in the per diem rate are provided as necessary or when determined by the interdisciplinary team or recommended by the consulting psychiatrist.

For information and referral services, contact the Brotoloc North of Eau Claire Regional office.
